

## Submitting a Loan to Underwriting

After the loan has been created and the information has been filled in, it's time to submit the file to underwriting for review. Please make sure you have your submission package uploaded before you submit the file to underwriting. We do have a checklist and a submission stacking order on our website, fsbtpo.com, it can be found under the "Tools for Review" section, labeled appropriately "Submission Form".

To submit you will click on the "Actions" tab and select "Final".

Once the file is finalized, it will show on the loan's home screen with the date it was finalized.

Loan Details			
<b>Final:</b>	8/3/2021	<b>Product Code:</b>	Conventional 30
